[PRESENTATION]

Dear recruiter,

I hope this email finds you well.

I am writing to express my interest in the VFX Compositor position. With a background in motion design, editing, and 3D artistry, I transitioned to VFX compositing in 2019 to combine my creative and technical skills. My experience has been further enhanced by certifications, including Nuke Official Trainer through FXPHD and the prestigious Master of Light course by Victor Perez.

I've also developed Python tools to streamline workflows in Nuke, NukeStudio, and Hiero, creating user-friendly UIs with PySide2 to simplify data handling. Additionally, I have integrated these solutions with Autodesk Flow to improve collaboration and efficiency.

I look forward to the opportunity to discuss how my skills align with your team's needs.

Thank you for your time and consideration.

Warm regards,

Luciano Cequinel
[VFX Compositor | Python Developer]
